ADD/ADHD:

What it is, What it isn't, and How is it Treated?

Presented by

Joseph Gumina, PhD

Psychologist

Kalmanovitz Center for Child Development

California Pacific Medical Center

San Francisco and San Rafael, CA

Thursday, January 22, 2015

6:00 to 7:30PM

Tamalpais Pediatrics, Novato

400 Professional Center Drive, Suite 423

Novato, CA 94947

Topics:

1. What is ADD/ADHD? What is real and what is popular myth?
2. How can ADD/ADHD affect child development?
3. What are the best treatments for ADD/ADHD?
4. How can parents manage challenging behaviors and issues that may be related to ADD/ADHD?
5. How can parents coordinate their efforts with schools, activity programs, and health care providers to help their children be successful?
